Rapid[®] 105 & 106 Electric Stapler

ISP's Rapid[®] 105 and 106 Electric Staplers are an economical approach to handling a limited range of basic, less demanding, light duty, applications with paper, thin boxboard, or lightweight packaging. Designed for flat and saddle applications, ISP's 105 and 106 are dependable, adaptable, quick, gentle and quiet.

ISP's Rapid 105 and 106 Electric Staplers are compact, portable staplers that mount easily to tabletop surfaces by means of clamps. Or, individual units can be mounted to an ISP adjustable floor stand for sit-down or stand-up positions. In addition, ISP's 105 or 106 Staplers can be put to work in applications that require as few as one stapler, or in side-to-side configurations, using as many as four staplers.

ISP means: having a choice of machines, staplers or stitchers, and the accessories you need to handle all of your light, medium, heavy, or extra heavy duty assembly applications with the utmost in money-saving conveniences and advantages.

ISP Rapid® 105 & 106 Electric Stapler

ECONOMICAL, COMPACT, PORTABLE

ISP's Rapid® 105 and 106 Electric Staplers are compact, portable, lightweight, automatically operated electric staplers designed for light duty work with paper, thin boxboard, and lightweight packaging materials.

The 105 model is used exclusively for flat, table applications. The 106 model can handle both flat or saddle applications.

These units operate with a throat depth of up to 4 inches. And, these units staple up to 40 sheets of 20 lb. paper using an automatic work trip or by actuating a foot pedal.

Because the 105 and 106 models are narrow, up to 4 like units can be mounted alongside one another and can be interconnected with cables for a series of multiple applications.

ISP'S RAPID 105 & 106 STAPLERS SHARE THESE STANDARD FEATURES

- Automatic work trip or foot pedal actuated stapling.
- Front loading of staples for ease and convenience.
- When sight shield is raised, unit will not operate.
- When set up in a side-to-side series, connections by opto cables make it possible for all staplers to actuate simultaneously
- Foot pedal is easy to connect, requiring only a plug-in contact.
- Double triggers are individually adjustable.
- Adjustable stapling power and adjustable stapling depth up to 100 mm.

ISP CKKK-215 ADJUSTABLE FLOOR STAND

ISP's CKKK-215 Adjustable Floor Stand is recommended for converting individual electric staplers to complete self-contained work stations. It conveniently allows you to use your ISP stapler in sit-down or stand-up operations. This exceptionally stable, all metal stand quickly extends from 29.5" up to 41" in height.
